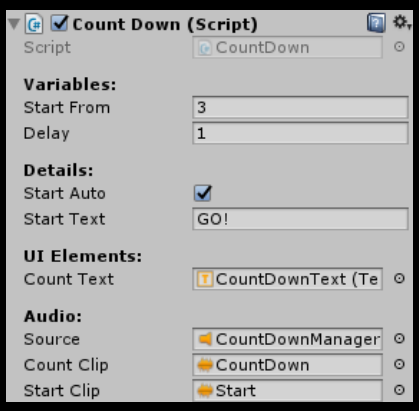
SMART COUNTDOWN DOCUMENTATION

INTRODUCTION

SMART COUNT COUNTDOWN IS A SIMPLE AND EFFICENT WAY TO ADD COUNTDOWN TO YOUR GAME.

GET STARTED

THE FASTEST WAY TO ADD COUNTDOWN TO YOUR GAME SCENE IS TO DRAG AND DROP "COUNTDOWNMANAGER.PREFAB" FROM "PREFAB" FOLDER.



HOW TO SET THE SCRIPT

SET THE SCRIPT IS REALLY EASY AND INTUITIVE. IN THE INSPECTOR YOU CAN EASILY TUNE EVERY VALUE OF THE CUNTDOWN:

START FROM – THE NUMBER WICH COUNTDOWN STARTS.
DELAY – THE DELAY, IN SECONDS, BETWEEN COUNTDOWN STEPS.
START AUTO – IF ENABLED COUNTDOWN STARTS AUTOMATICALLY AT THE START OF THE SCENE.
START TEXT – TEXT TO SHOW WHEN COUNT DOWN IS ENDED e.g. "GO!".
COUNT TEXT - THE UI/GUI TEXT ELEMENTS WICH SHOW COUNTDOWN STEPS.
SOURCE – THE SOUND SOURCE.
COUNT AND START CLIP – SOUND CLIPS FOR COUNTDOWN. "START CLIP" IS PLAYED WHEN COUNTDOWN IS ENDED.

```
//the void to start after countdown
void StartVoid()
{
    //insert here your void
}
```

HOW TO TUNE THE SCRIPT

YOU ARE CLEARLY FREE TO TUNE THE SCRIPT AS YOU WANT!
HOWEWER IN ALL CASES YOU NEED TO ADD YOUR METHOD TO THE SCRIPT.
TO DO THAT JUST PUT YOUR CODE INSIDE THE "START" VOID AS SHOWED IN PICTURE.

CONCLUSION

That's all. For further information, I invite you, to watch video tutorials on my YouTube channel or fell free to contact me, I will be happy to help you.

CREDITS

All assets (3D models, texture and scripts) was made by me. I am really proud of my Smart CountDown. Most of all I would like that you enjoy and exploit my asset in all it is potential.
